**The following topics/questions were not answered during the recorded webinar:**

- Will there be a future training on how to interpret the dashboard data?
  - Yes, however there is currently an issue with how the data is displaying on the dashboard. This is under review by EMS and will be fixed in a future release. Once the data view is displaying as intended, we will host a training on how to interpret the data and how it can be useful to your program. ACEND will also send a newsletter update and update the Program Director User Guides when more information becomes available.
