Quality nutrition and dietetics practice is built on a solid foundation of education and credential assessment processes to assure the competence of the RDN and NDTR.

The six pillars represent the six areas of quality practice as outlined by the National Academies of Science, Engineering, Medicine: Health and Medicine Division:

- Follows a consistent process and model based on practice knowledge, evidence, research and science
- Exists within an individual’s scope of practice, state licensure and statutory scope of practice, regulations and standards
- Provides for self-evaluation and used by regulatory agencies to determine competence for credentialed nutrition and dietetics practitioners
- Aims for compensated, equitable and reimbursable services
- Evaluates and measures outcomes through data sources
- Enables lifelong learning with career ladder through credentialing, certification and advanced practice standards

**Code of Ethics**

This Code applies to nutrition and dietetics practitioners who act in a wide variety of capacities, provides general principles and specific ethical standards for situations frequently encountered in daily practice. The primary goal is the protection of the individuals, groups, organizations, communities, or populations with whom the practitioner works and interacts. Individual Scope of Practice

Academy Scope of Practice
- Scope of Practice for the RDN
- Scope of Practice for the NDTR

State Laws
- Licensure
- Certification
- Title Protection

Accreditation Organizations
- Standards and Elements of Performance/Explanation
- Standards and Measures
Examples:
- The Joint Commission
- Healthcare Facilities Accreditation Program
- Public Health Accreditation Board

Federal and State Regulations and Interpretive Guidelines
- Federal Final Rules
- Conditions of Participation
- Conditions for Coverage
- Surveyor Guidance
- State Administrative and Occupational Codes

Additional Individual Training/Credentials/Certifications
Examples:
- Board Certified Specialist Credentials
- School Nutrition Specialist
- National Board Certified Health & Wellness Coach
- Certificate of Training in Adult Weight Management

Education and Credentials
- Complete academic requirements and supervised practice experience specified by the Accreditation Council for Education in Nutrition and Dietetics (ACEND; www.eatrightpro.org/acend).
- Achieve and maintain the Commission on Dietetic Registration’s (CDR; www.cdrnet.org) Registered Dietitian Nutritionist (RDN) credential or the Nutrition and Dietetics Technician, Registered (NDTR) credential.

Organizational Policies and Procedures
- Medical Staff Rules, Regulations and Bylaws
- Ordering Privileges

This figure describes the intersection point for Individual Scope of Practice, which includes: Academy Scope of Practice; State Laws; Education and Credentials; Federal and State Regulations and Interpretive Guidelines; Accreditation Organizations; Organizational Policies and Procedures; and Additional Individual Training/Credentials/Certifications.
